No comments
- Retain parking
- Separation from moving traffic
- Safety improvement needed
- Peak times clearway
- Retain 10 hour parking
- Extend cycleway North of Davis St
- Strong opposition
- Retain angle parking
- Remove flush median
- Remove angle parking

57 total

For those who did not support the proposal, most common comments were about the removal of parking.
Yes, but with changes comments

Overall comments by support cont...

55% of submitters who supported the proposal with changes commented about extending the bike lanes north and making a better separation between people on bikes and people in cars.
How important is it to connect this proposed bike path with the safer city-wide cycling network?

68% of submissions rated this bike connection as Important or very important.
Importance comments by high and low importance
(High = ‘very important’ and ‘important’, Low = ‘low importance’ and ‘not important’)

The top comments from those that thought the connection was of low importance believed there were higher priorities.

The top comment from people who thought the connection was of ‘high importance’ related to the safety of people on bikes.
'Any other’ comments

- Other
- Extend cycleway North of Davis St
- Safety improvement needed
- Separation from moving traffic
- Retain parking
- Angle parking dangerous
- Not connected to a network
- Blank
- Peak times clearway
- Cycleway more visible
- Retain angle parking
- Change to parallel parking
- Strong opposition
- Remove angle parking
- Remove flush median
- Bus lanes and bus stops
- More people will/are cycling

194 total
What is your primary relationship to this street?

- 206 of the 316 submissions came from people who regularly travel along the street.
- 316 total submissions.
Respondents by suburb

'Other' had the highest number of submissions. 'Other' is used by people that live outside Wellington City suburbs.
Demographics of respondents

Age of respondents

- Under 18: 4
- 18-29: 12
- 30-39: 96
- 40-49: 204
- 50-59: 7
- 60-69: 4
- 70-79: 1

Gender of respondents

- Female: 163
- Male: 146
- Other: 7
- Not answered: 4

56% of respondents are aged between 30-49

Individual vs organisational respondents

- As an individual: 292
- On behalf of an organisation: 17
- Not answered: 7

Would you like to be informed if there is an opportunity to talk to Councillors about these changes?

- No: 65

46% of respondents have answered 'Yes' to being informed, 52% have answered 'No', and 2% have not answered.
Appendix:
Theme Descriptions
Overall, do you support the proposal for roadside bike lanes and the associated changes on Thorndon Quay?

- Safety improvement needed - Remarking on a general need for improved safety in this proposal
- Peak times clearway - Support for a clearway in all peak hours (in addition to the already existing morning clearway)
- Extend cycleway North of Davis St - The area North of Davis Street was strongly remarked on as a much more dangerous section that needed to be added to the originally proposed cycleway area
- Cycleway more visible - The proposed cycleway needs increased visual distinction from the road
- Separation from moving traffic - The proposed cycleway needs to be physically separated from both driving and parked cars for safety reasons
- Remove flush median - Remove the flush median to provide more space for a physically separated cycleway
- Retain angle parking - Retain angle parking as the type of park
- Remove angle parking - Remove the angle parking as the type of park
- Change to parallel parking - Change the angle parks to parallel parks
- Parallel parking dangerous - The parallel parking in this proposal is dangerous
- Angle parking dangerous - The angle parking is a safety hazard
- Retain parking - The retention of general parking spaces need to be considered
- Retain 10 hour parking - The retention of 10 hour parks need to be considered
- Strong opposition - Strong criticism of proposal
- Other - Concern or factor not mentioned elsewhere
How important is it to connect this proposed bike path with the safer city-wide cycling network?

- Safety improvement needed - Remarking on a general need for improved safety in this proposal
- Not connected to a network - There needs to be consideration of how this proposal links up to the joining of key destinations
- Bus lanes and bus stops - The placement of bus lanes and bus stops need to be considered in this proposal
- Cycleway more visible - The proposed cycleway needs increased visual distinction from the road
- More people will/are cycling - Mention of growing demographic of cyclers and the need to cater to this demographic
- Extend cycleway North of Davis St - The area North of Davis Street was strongly remarked on as a much more dangerous section that needed to be added to the originally proposed cycleway area
- Retain angle parking - Retain angle parking as the type of park
- Change to parallel parking - Change the angle parks to parallel parks
- Remove angle parking - Remove the angle parking as the type of park
- Angle parking dangerous - The angle parking is a safety hazard
- Retain parking - The retention of general parking spaces need to be considered
- Separation from moving traffic - The proposed cycleway needs to be physically separated from both driving and parked cars for safety reasons
- Strong opposition - Strong criticism of proposal
- Other priorities - Other areas within the nearby cycle network need attention before this area of Thorndon Quay
- Other - Concern or factor not mentioned elsewhere
Other comments

- Safety improvement needed - Remarking on a general need for improved safety in this proposal
- Peak times clearway - Support for a clearway in all peak hours (in addition to the already existing morning clearway)
- Not connected to a network - There needs to be consideration of how this proposal links up to the joining of key destinations
- Bus lanes and bus stops - The placement of bus lanes and bus stops need to be considered in this proposal
- More people will/are cycling - Mention of growing demographic of cyclers and the need to cater to this demographic
- Remove flush median - Remove the flush median to provide more space for a physically separated cycleway
- Cycleway more visible - The proposed cycleway needs increased visual distinction from the road
- Separation from moving traffic - The proposed cycleway needs to be physically separated from both driving and parked cars for safety reasons
